1a -

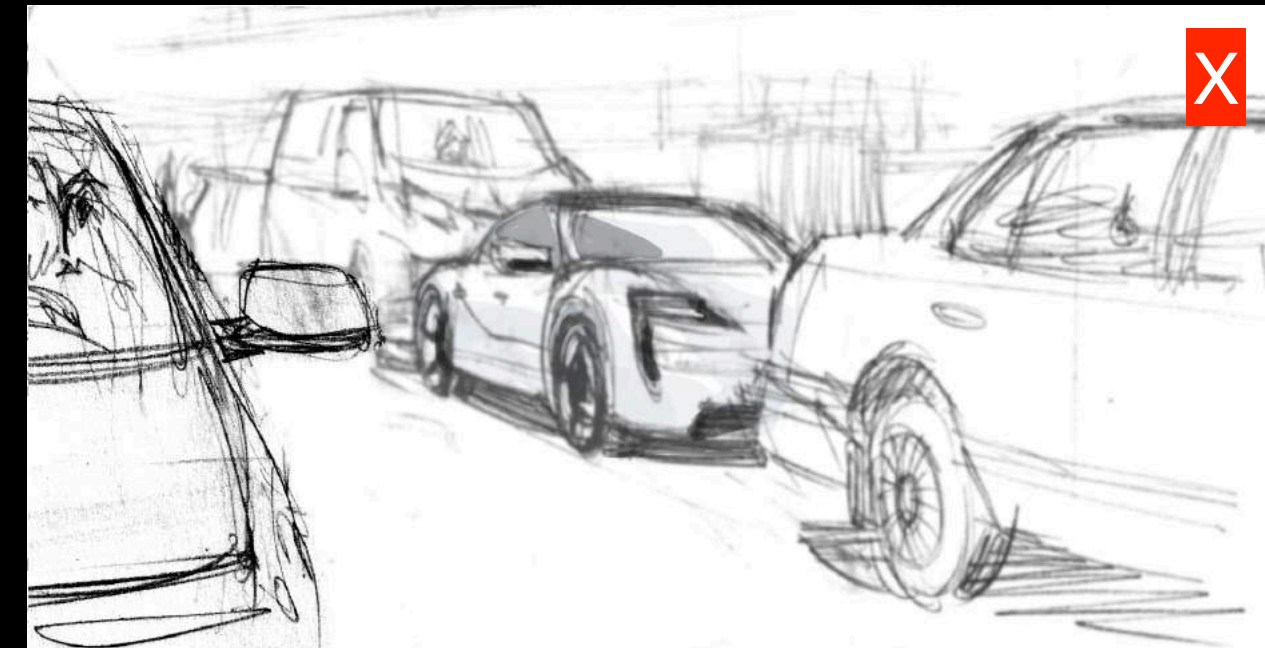

The film opens on a busy American avenue. The mood is gloomy, the music sad. The camera moves along the traffic jam, where one ordinary car follows another. The camera moves on to...

1b -

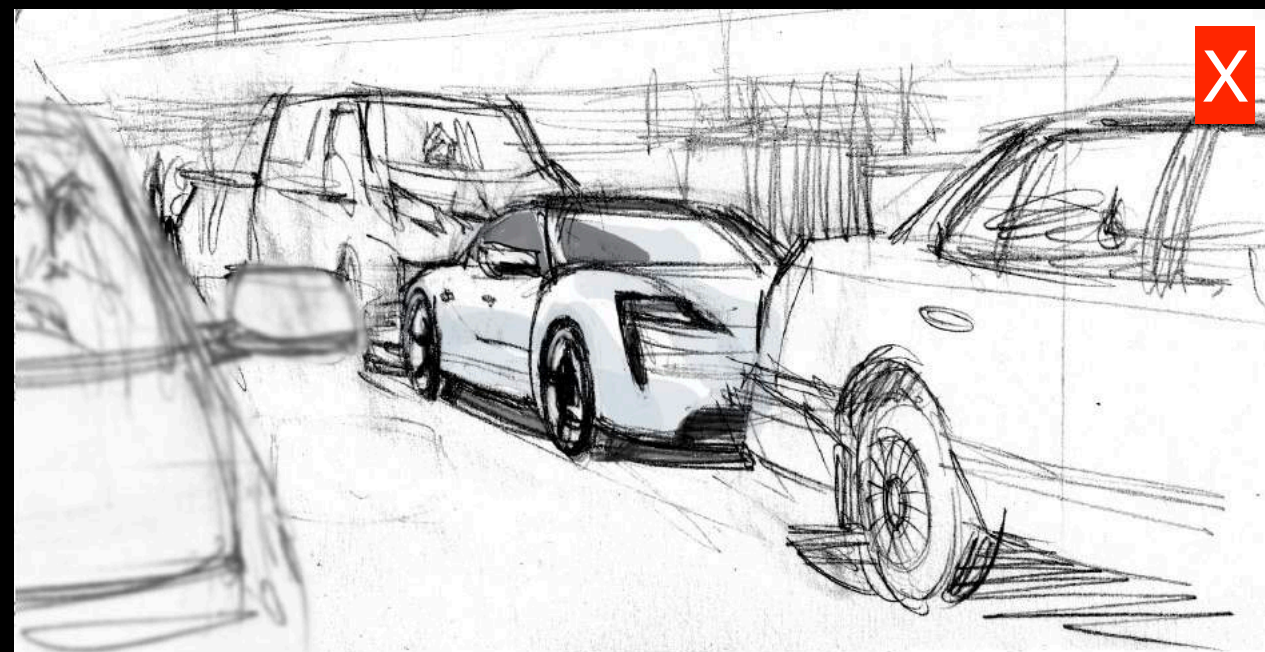

A magnificent Lamborghini Huracan, which stands out both for its color and for its sporty shape, unusual in that kind of place. It is surrounded, completely trapped in a place that is not for it.

2a -

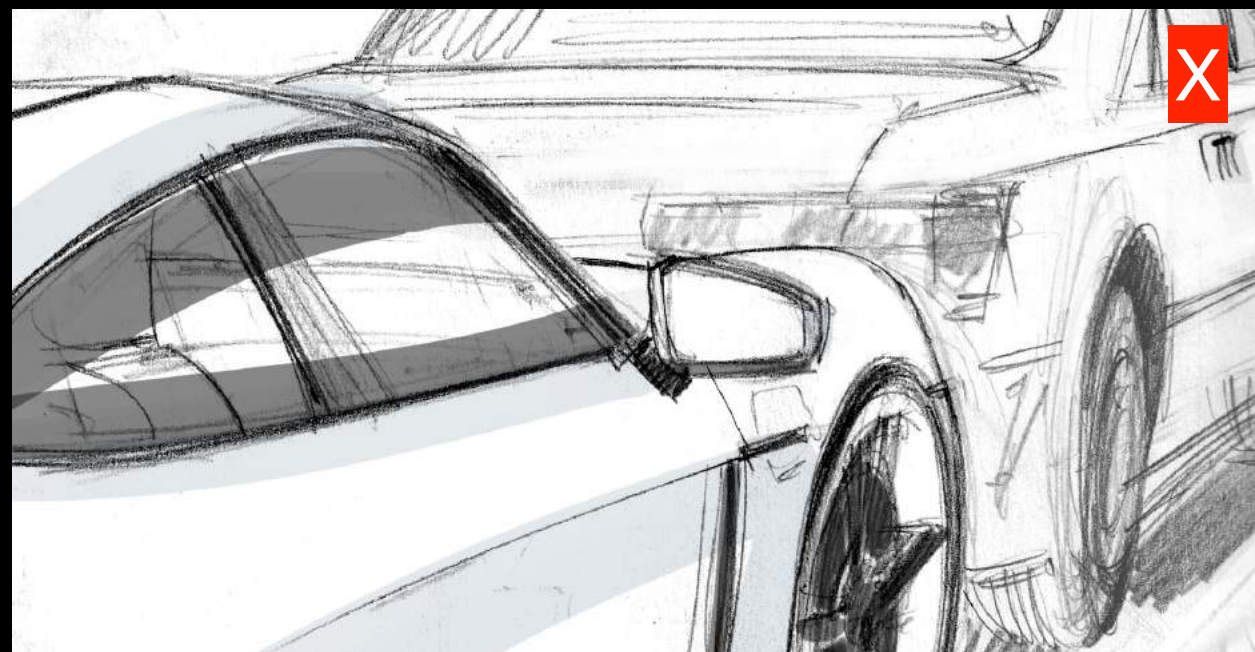

A little further in the traffic jam, we can guess another dream car is at a standstill: a Porsche Taycan Turbo S.

2b -

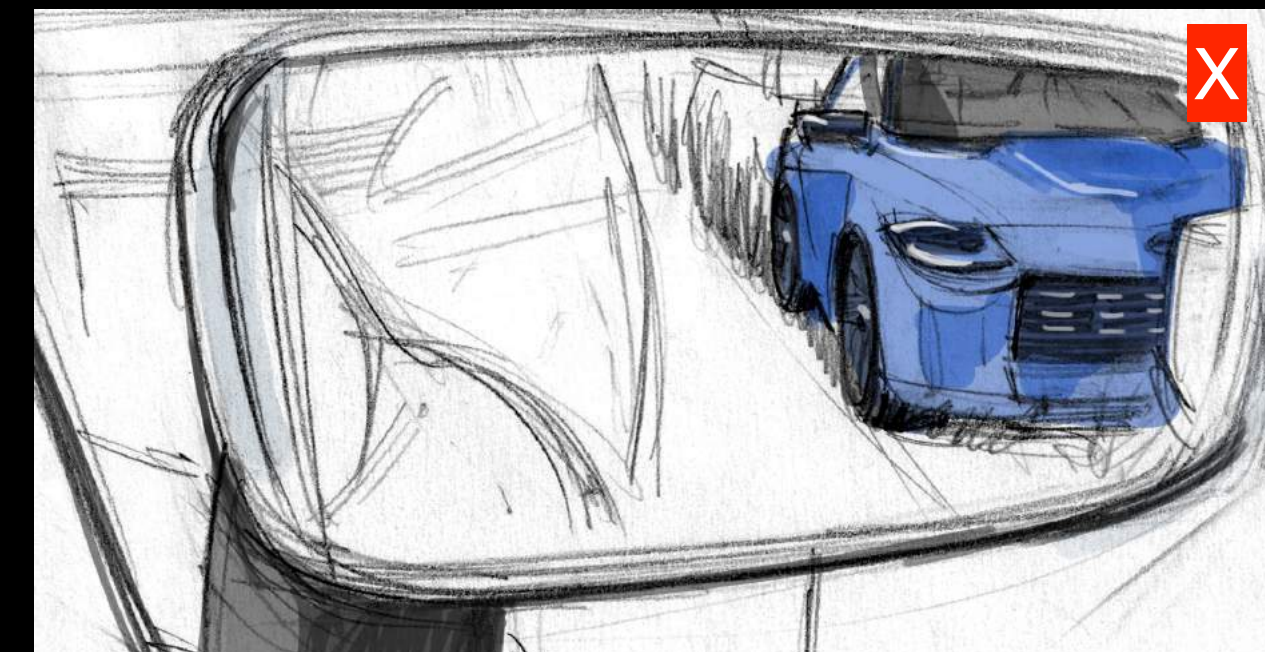

The focus shifts to the rear of the image, so that our eye can discover it.

3a -

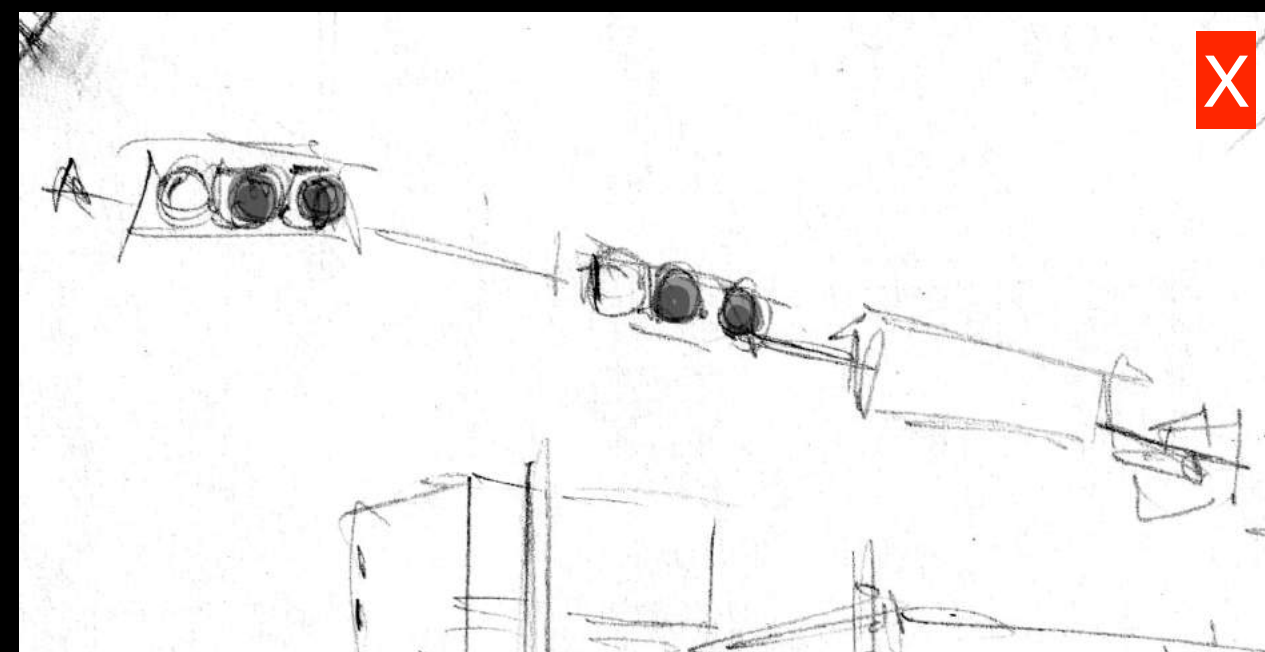

From another angle, the camera moves closer to the Porsche Taycan Turbo S, focusing on its rear-view mirror.

3b -

You can see the reflection of a Nissan Z 2023, also stuck in the traffic jam a little further back.

4 -

A few still shots underline the frustration and drudgery of this urban environment. Starting with a shot of an endlessly red traffic light.

5 -

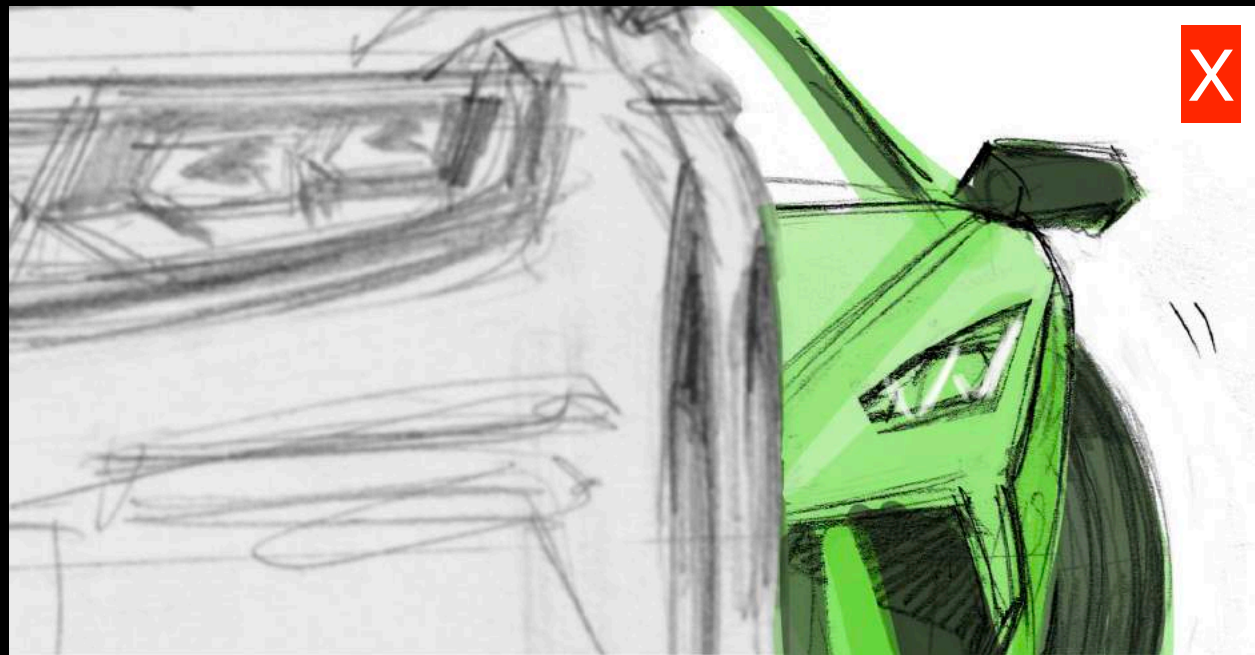

Then a speed limit sign, absurdly low for such powerful cars.

6 -

And also a shot inside the Lamborghini Huracan. The camera moves towards the windscreen, revealing nervous hands tapping impatiently on the steering wheel.

7 -

Initially hidden by an ordinary car in the foreground (out of focus), the Lamborghini Huracan will shift slightly to emerge from the traffic jam, as if it wanted to see the full extent of the traffic jam.

8 -

As from its point of view, we'll notice a giant billboard presenting a paradise for cars: Motorfest. The camera moves towards the billboard.

9 -

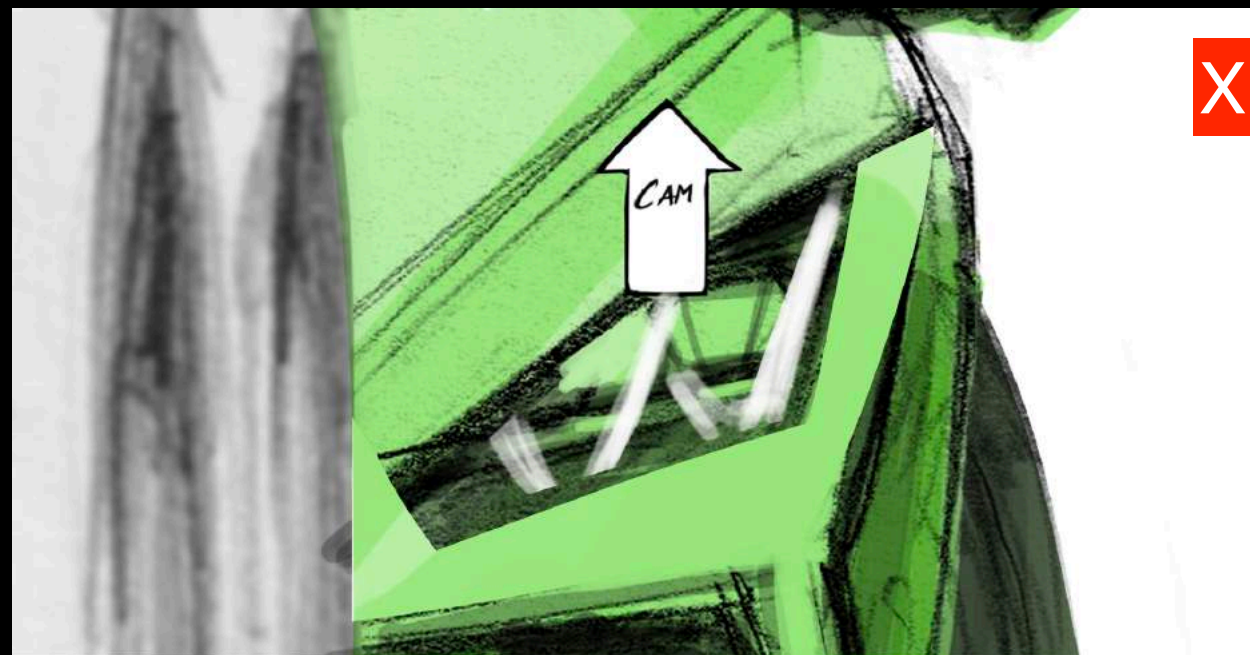

Back on the Lamborghini's headlight, the camera slowly approaches it.

10 -

Then we can see the billboard again. This back-and-forth game lets us feel the emotion of the car at the sight of an inaccessible paradise.

11 -

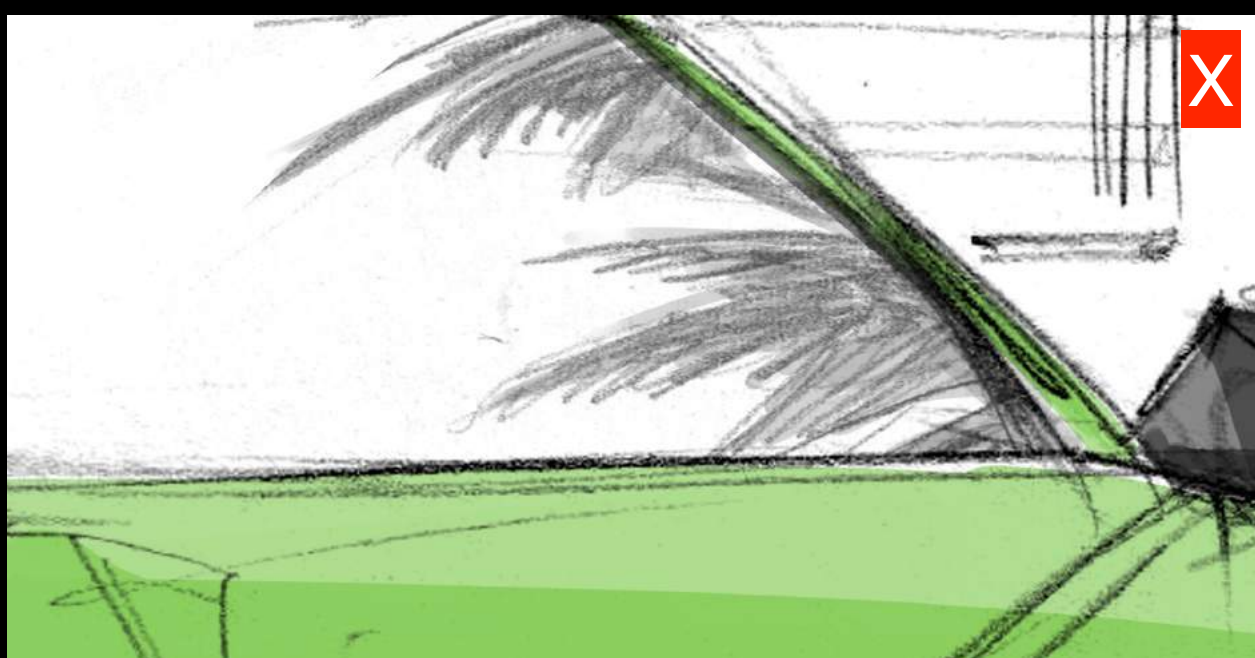

The headlight again...

12 -

The billboard, even closer...

13 -

As we return to the car, something a little surreal starts to happen. Palm tree reflections will appear in the headlight, then on the hood and windscreen. We realize that we are entering in a fantasy, a dream linked to the billboard the Lamborghini Huracan has just seen.

14 -

With a brutal cut, we are thrown into a sublime road lined with palm trees and typical Hawaiian vegetation. The camera follows the road at ground level.

15 -

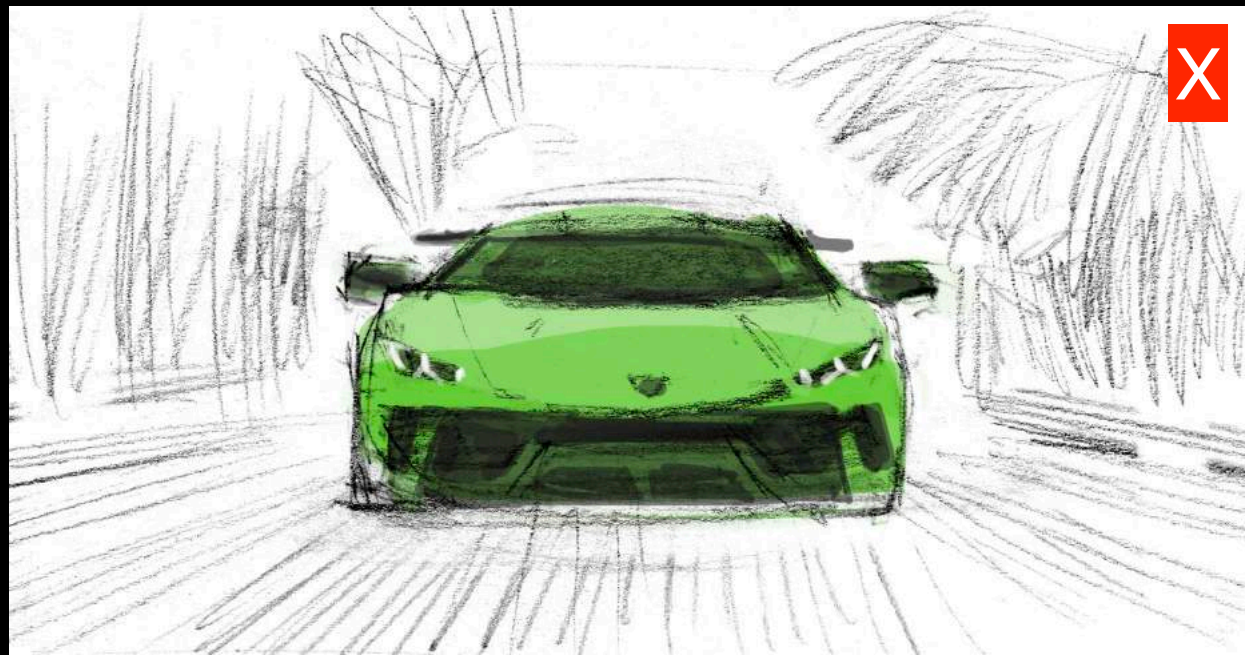

Then the Lamborghini Huracan enters the frame in a spectacular way.

16 -

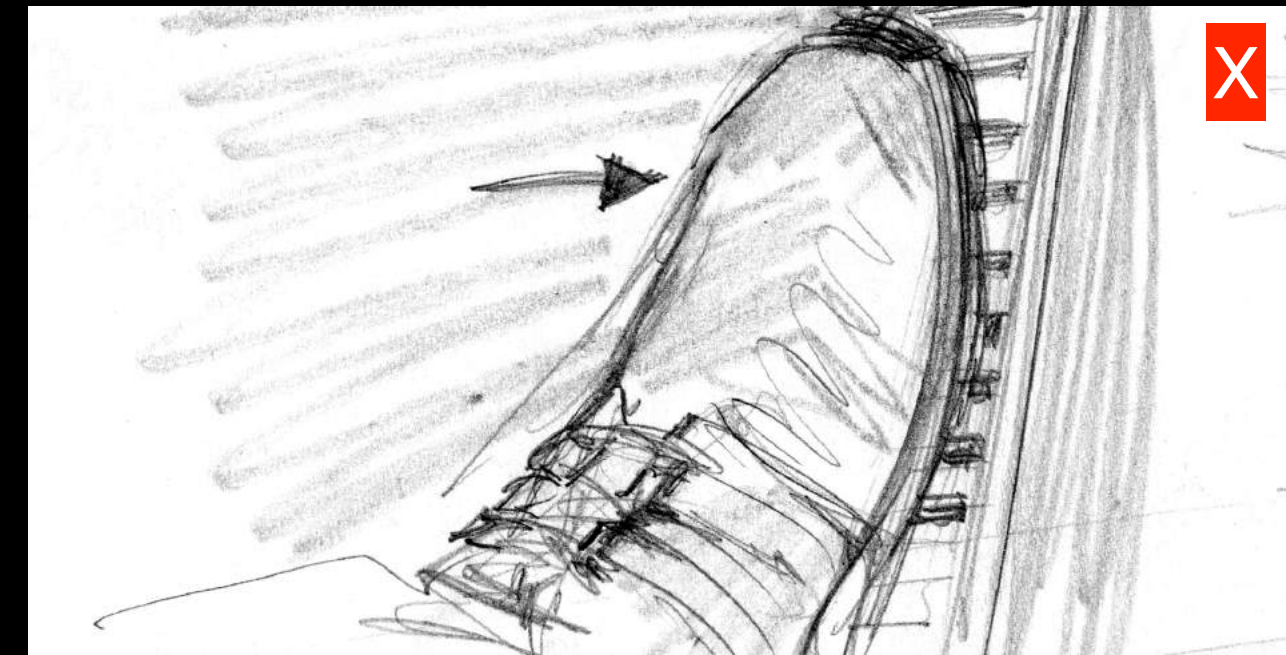

The Lamborghini Huracan hurtles down the road, leaving a trail of dust (coming from the road) flying towards the camera. Its move off towards the horizon.

17 -

We pick it up from the front, a little further along the road

18 -

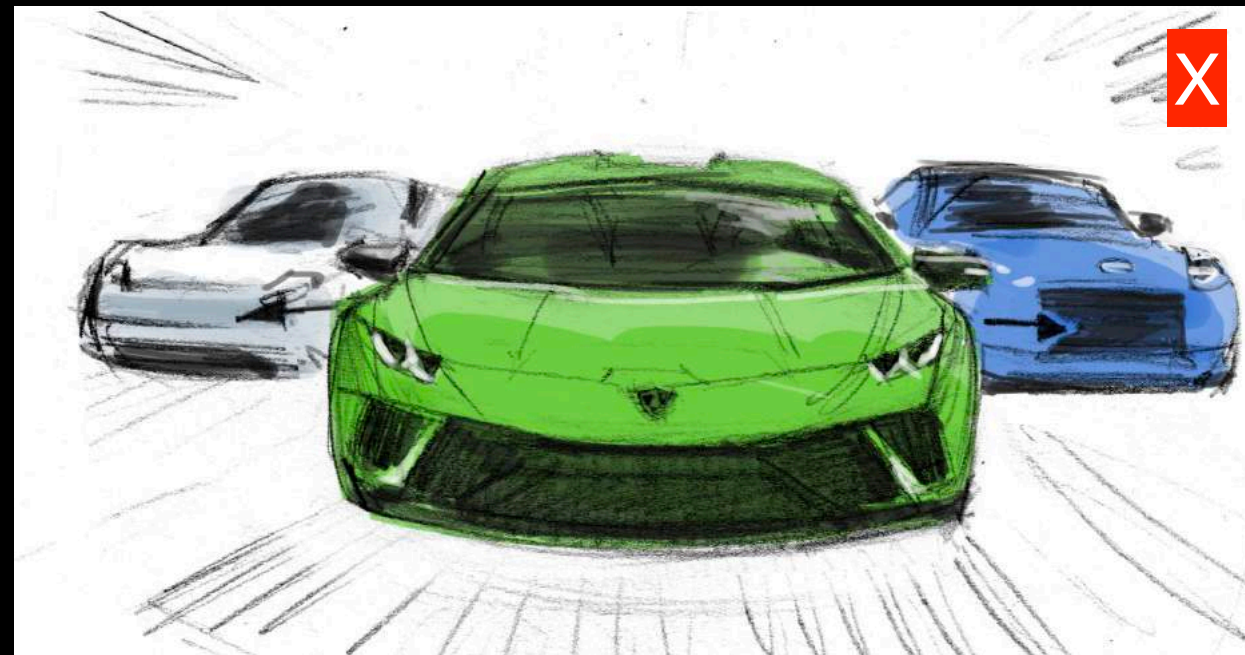

Quick shot of a foot pressing down on the accelerator.

19 -

Another quick shot of the steering wheel, ferociously controlled by the driver's hands.

20 -

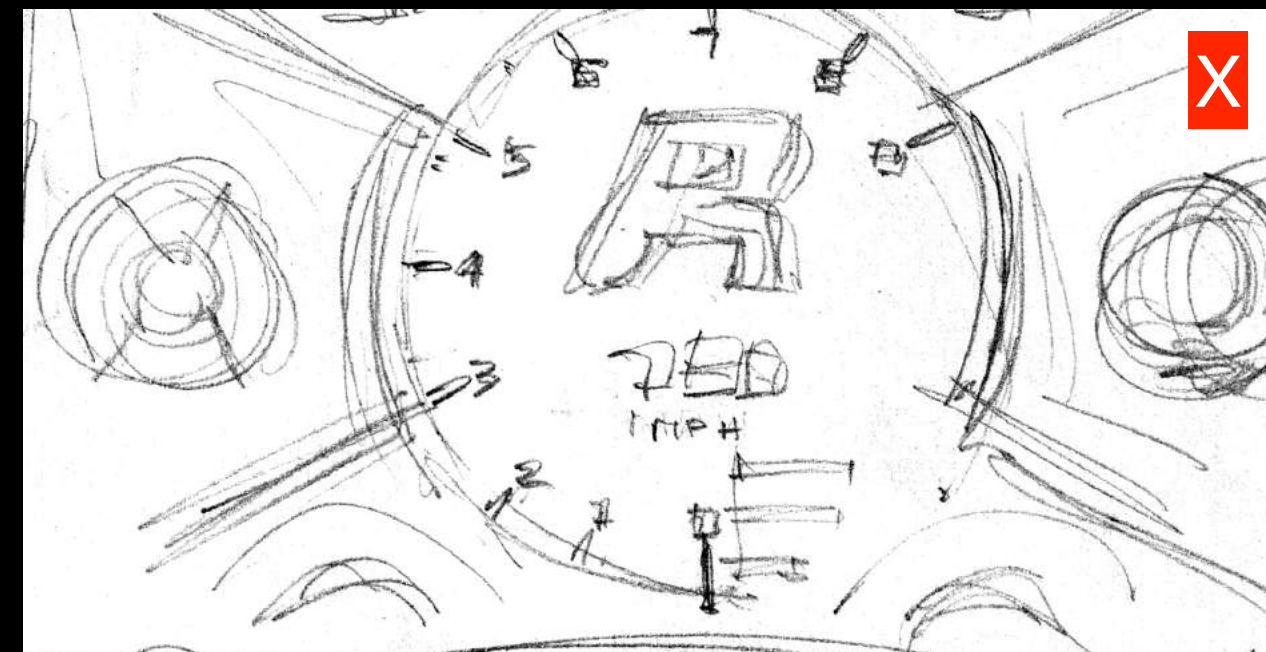

Back to a front view of the Lamborghini Huracan. Behind it, the Porsche Taycan Turbo S and the Nissan Z 2023 emerge spectacularly.

21 -

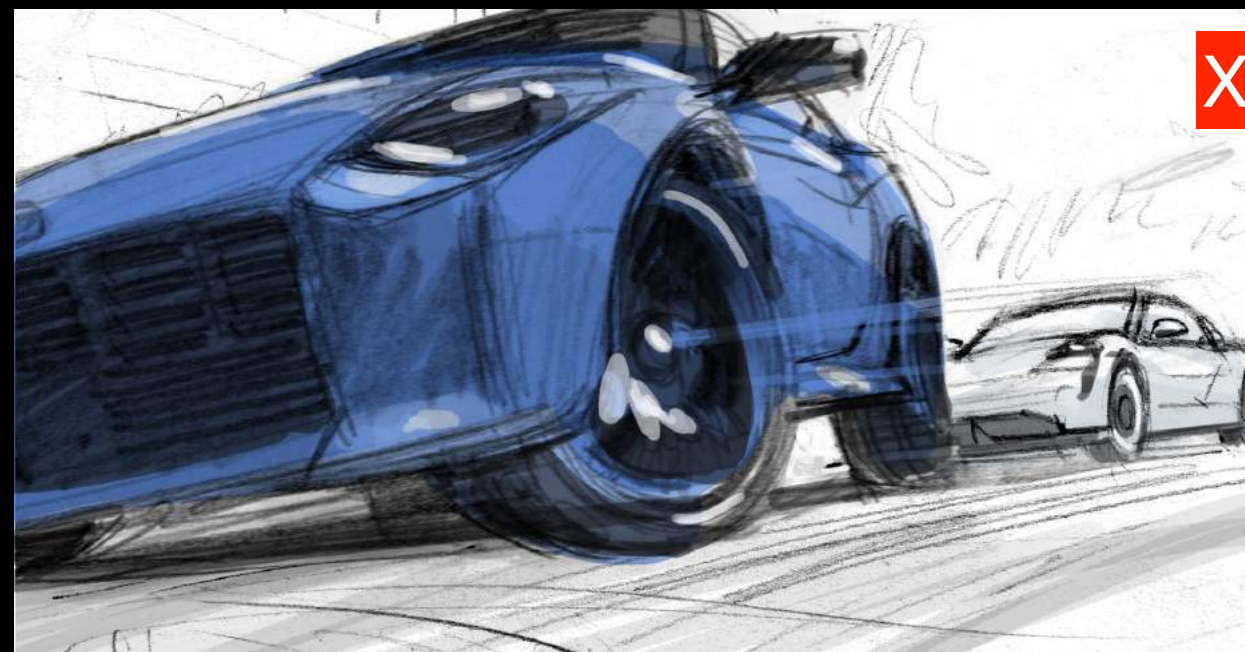

The Lamborghini Huracan accelerates and swerves, leaving the shot.

22 -

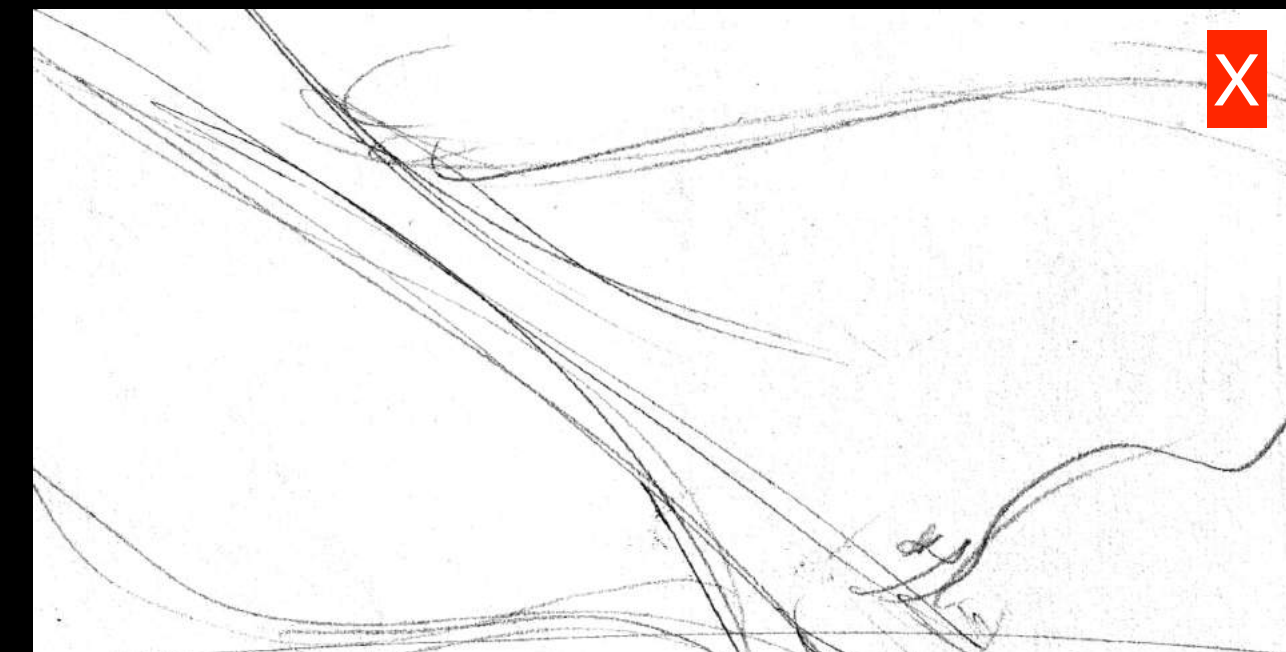

Still shot of the Lamborghini's Huracan dashboard as it revs up.

23 -

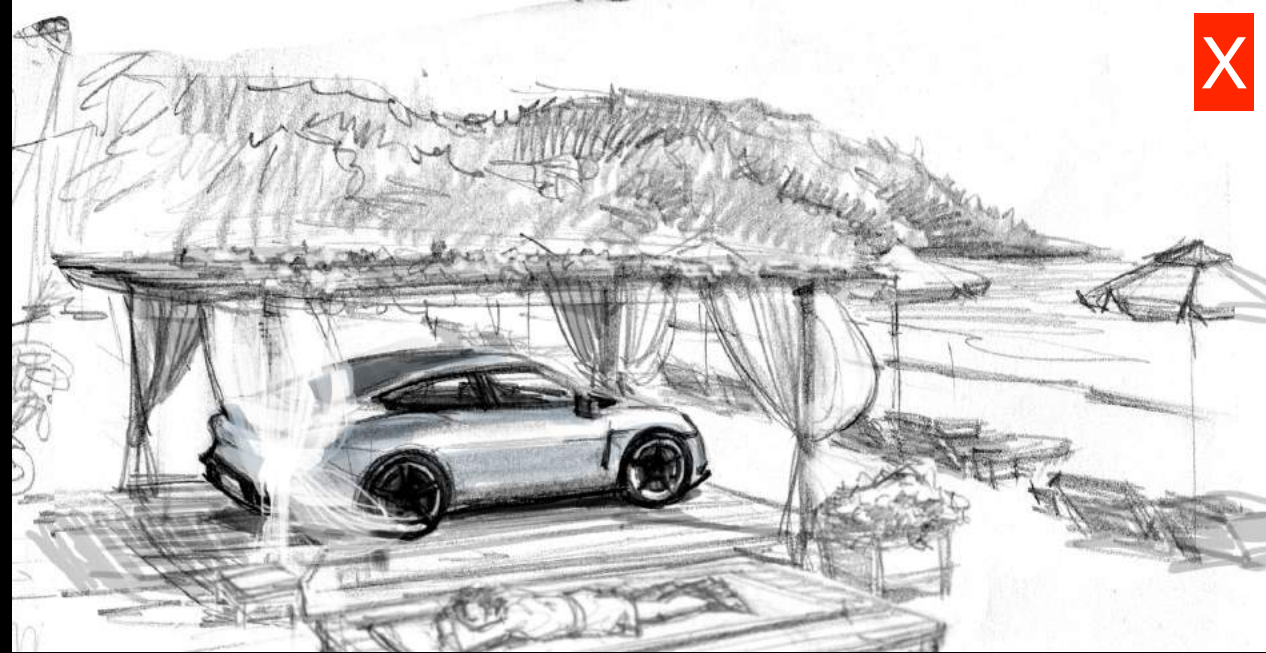

The Nissan Z 2023 and Porsche Taycan Turbo S whiz past the camera, giving a sensation of high speed.

24 -

The sensation of speed creates a transition to the next scene, in which long white veils are lifted, with sunlight streaming through the textile.

25 -

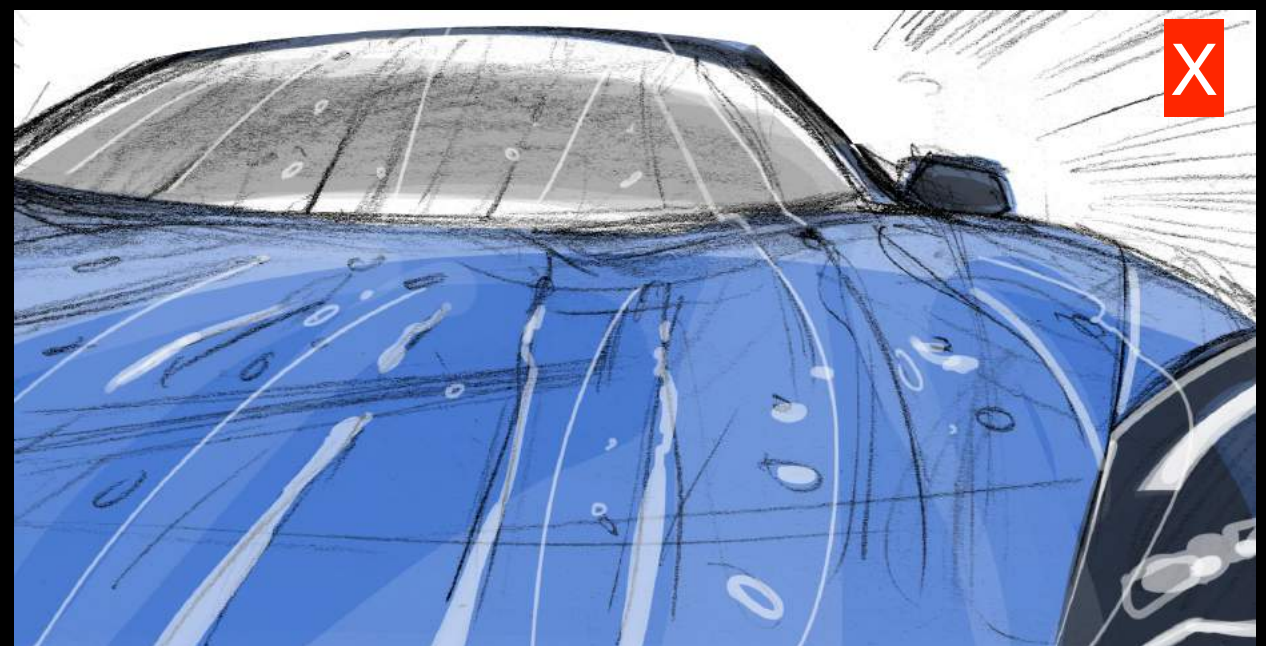

Wide shot of the setting for this scene. On a magnificent Hawaiian beach, the Lamborghini Huracan sits under a massage stand. The curtains flutter in the wind.

28 -

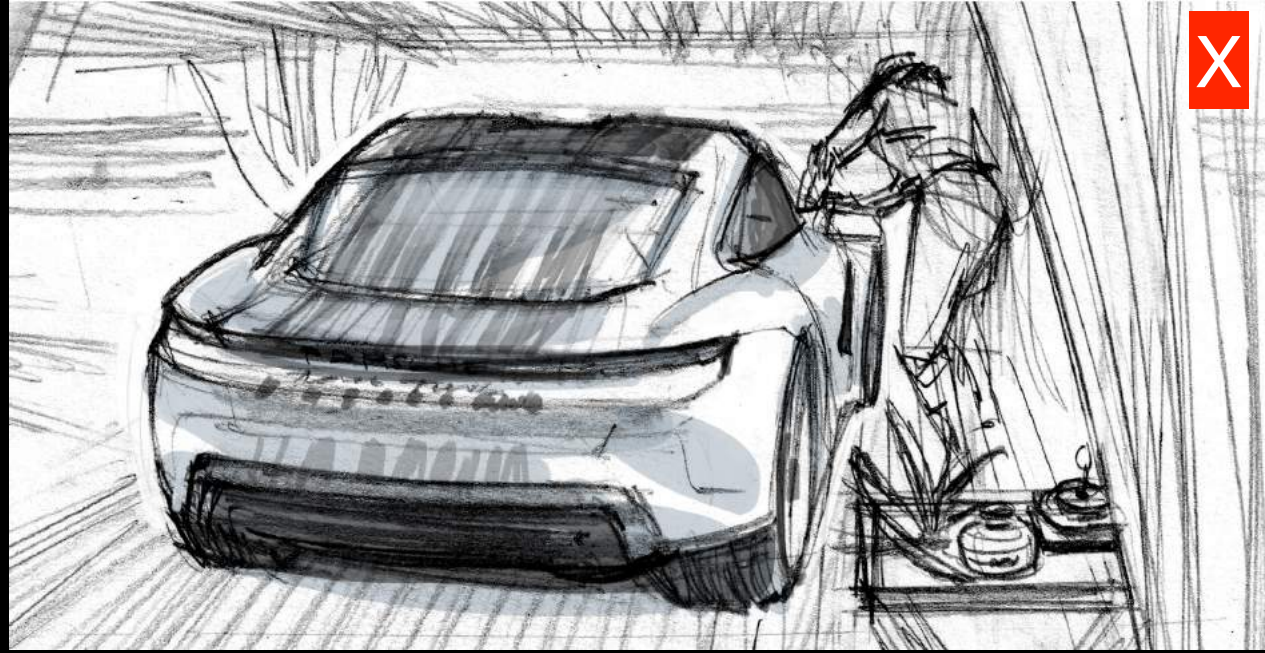

Cut to the next scene. A wide shot overlooks a magnificent waterfall in the middle of a lush natural setting. The water spreads over several levels through the rock and vegetation. At the bottom of the waterfall, the Nissan Z 2023 is gently sprayed as if taking a shower in the middle of nature. Against the backdrop of the waterfall is a hand-painted wooden sign reading "CAR WASH".

31 -

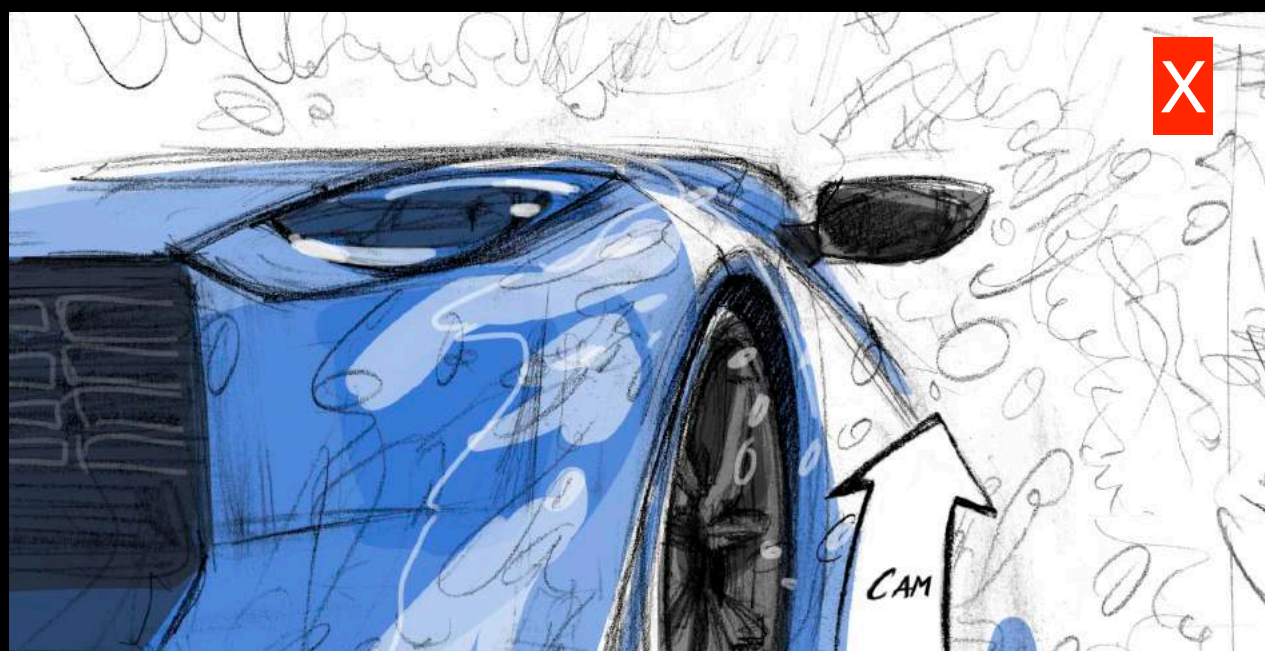

The same Nissan Z 2023 is back on the road. The water droplets that remain on the car move up to the hood as the speed increases.

26 -

Closer shot of the scene. We see the Lamborghini Huracan being polished by a man in a premium outfit worthy of a top-of-the-range salon.

29 -

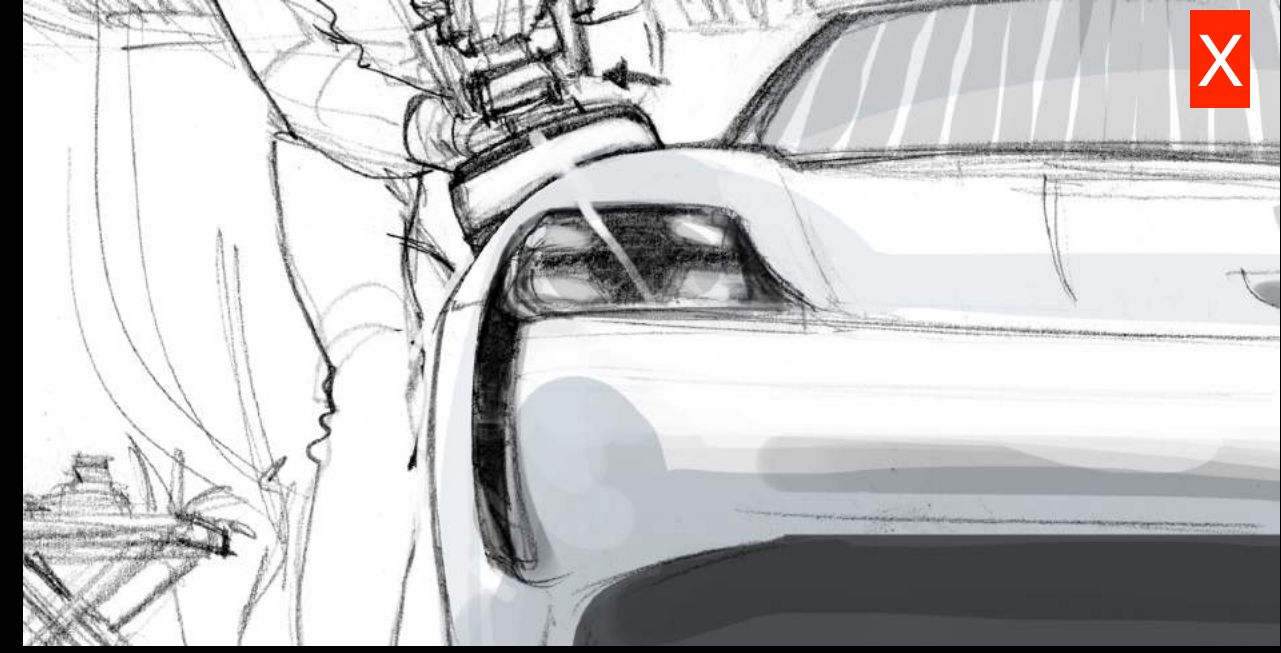

A closer shot of the Nissan Z 2023 shows us the water gently trickling down its bodywork

32 -

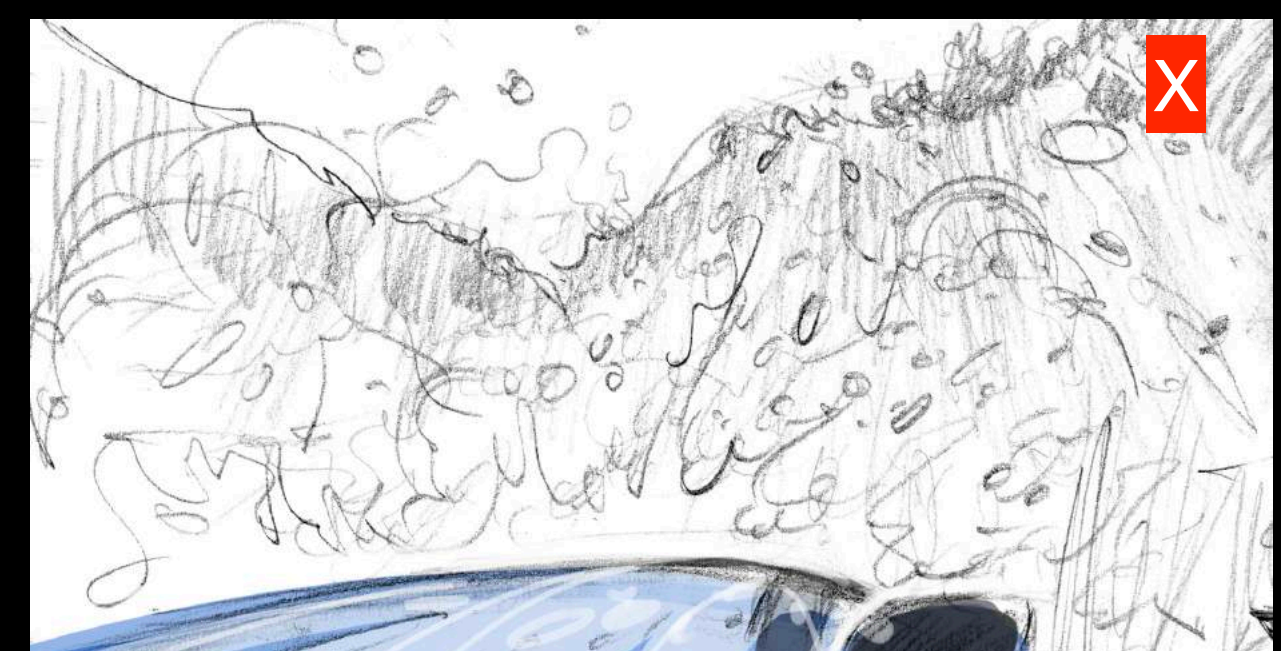

A magnificent topshot of a road in the middle of the Hawaiian nature. The Nissan Z 2023 and the Lamborghini Huracan cross paths under the silhouettes of tropical birds.

27 -

A close-up shows him taking care of the bodywork using his polishing machine alongside the car.

30 -

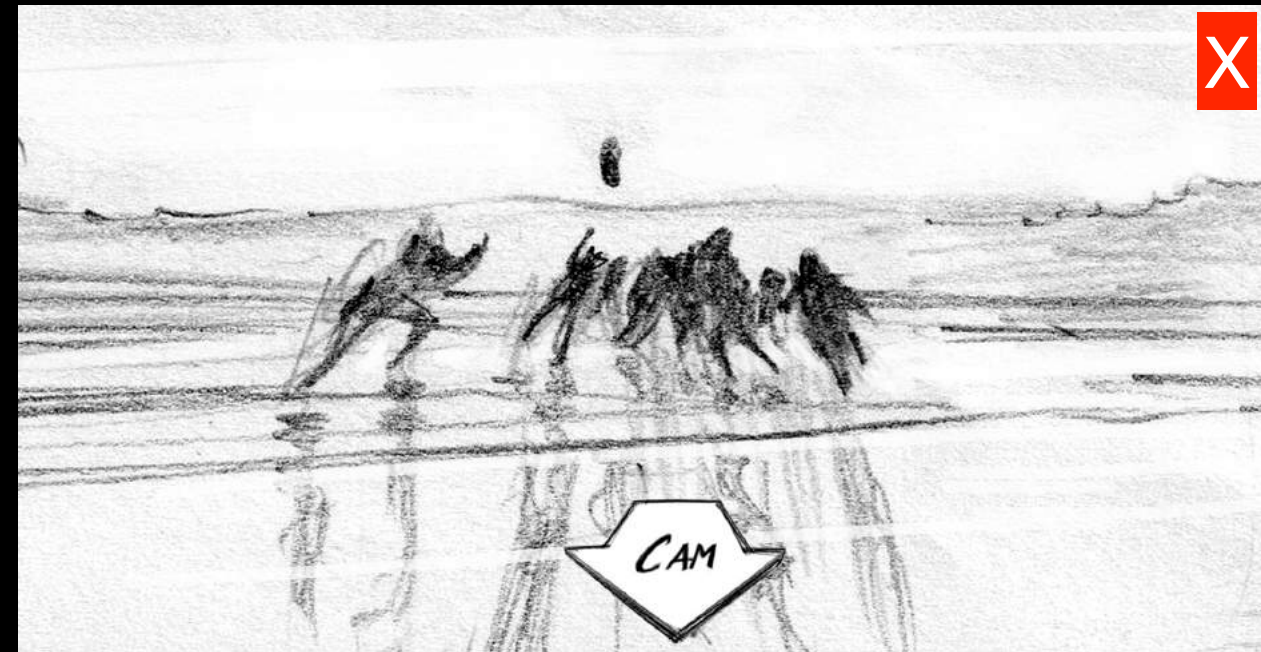

The camera continues to move upwards, facing directly towards the source of the waterfall, the water falling sensuously over the camera as if we were there, enjoying a natural shower.

33 -

The Lamborghini Huracan speeds along a cliff road with the magnificent panorama of Hawaii behind it.

34 -

We cut to the third key scene. A typical dream holiday scene takes place on a beach in the orange sunset: a group of friends playing American football.

35 -

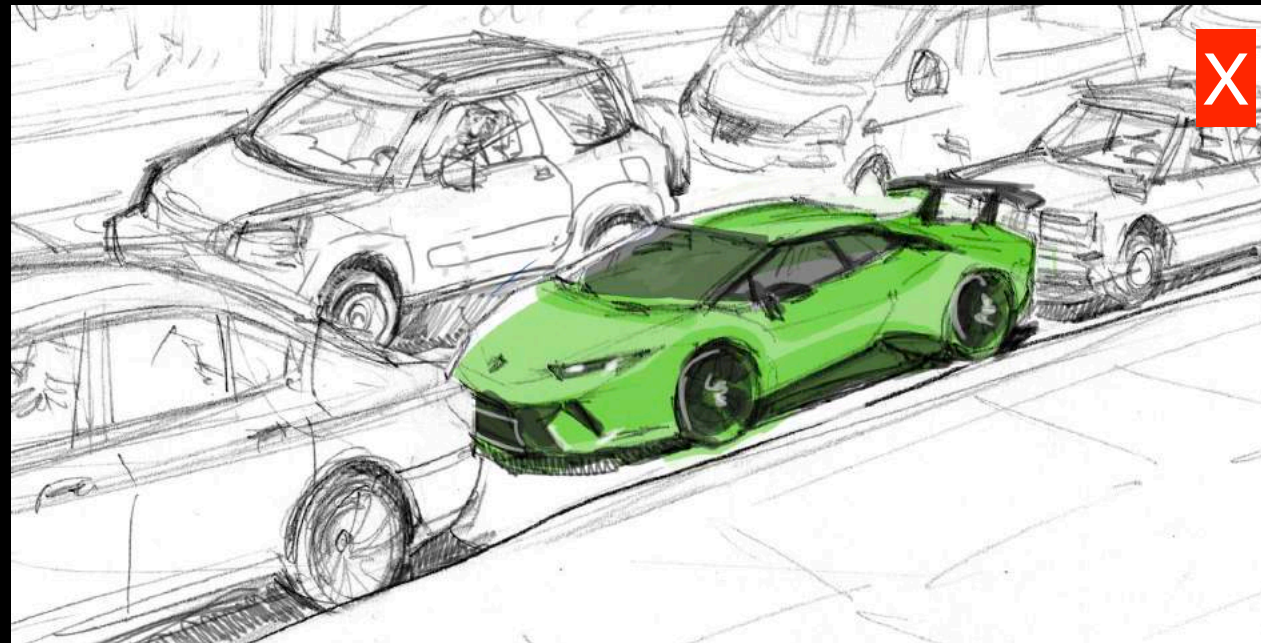

The camera moves away from this group of friends until it reaches an idyllic campfire. The movement continues, until the camera passes between the Lamborghini Huracan and the Porsche Taycan Turbo S, both enjoying a magical moment on this heavenly beach.

36 -

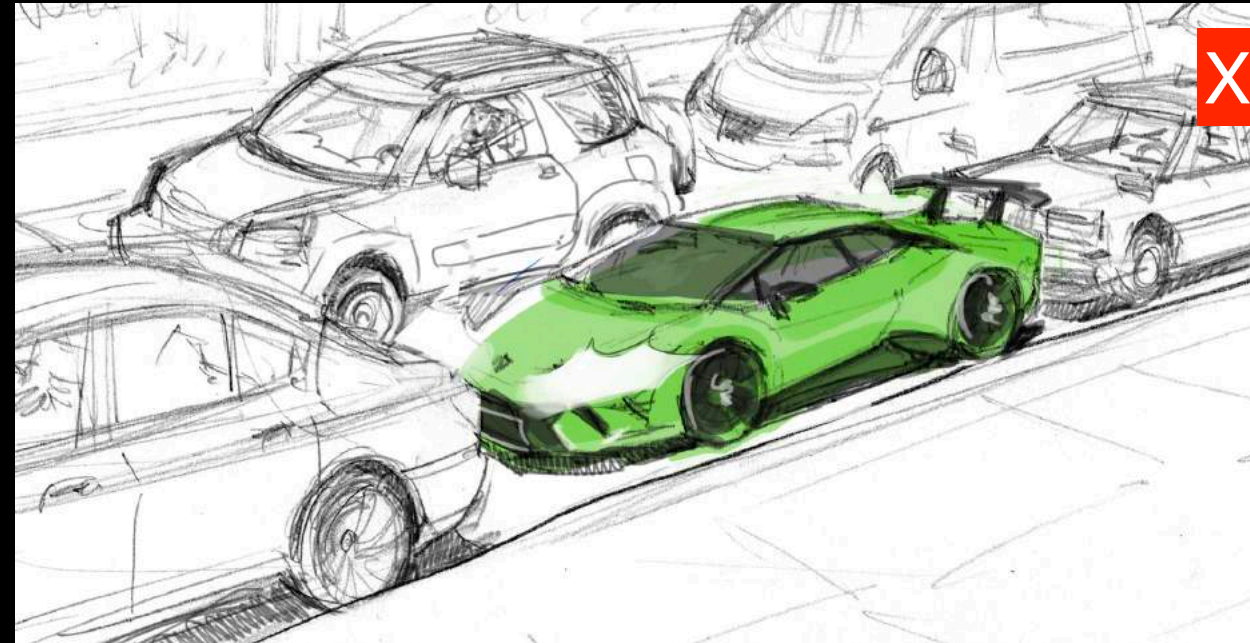

In a wider shot, the cars positioned around the fire are more clearly visible, with the Nissan Z 2023 also making the most of the moment. Suddenly, urban sounds such as car honks appear, completely at odds with the atmosphere on stage: HONK HONK !

37 -

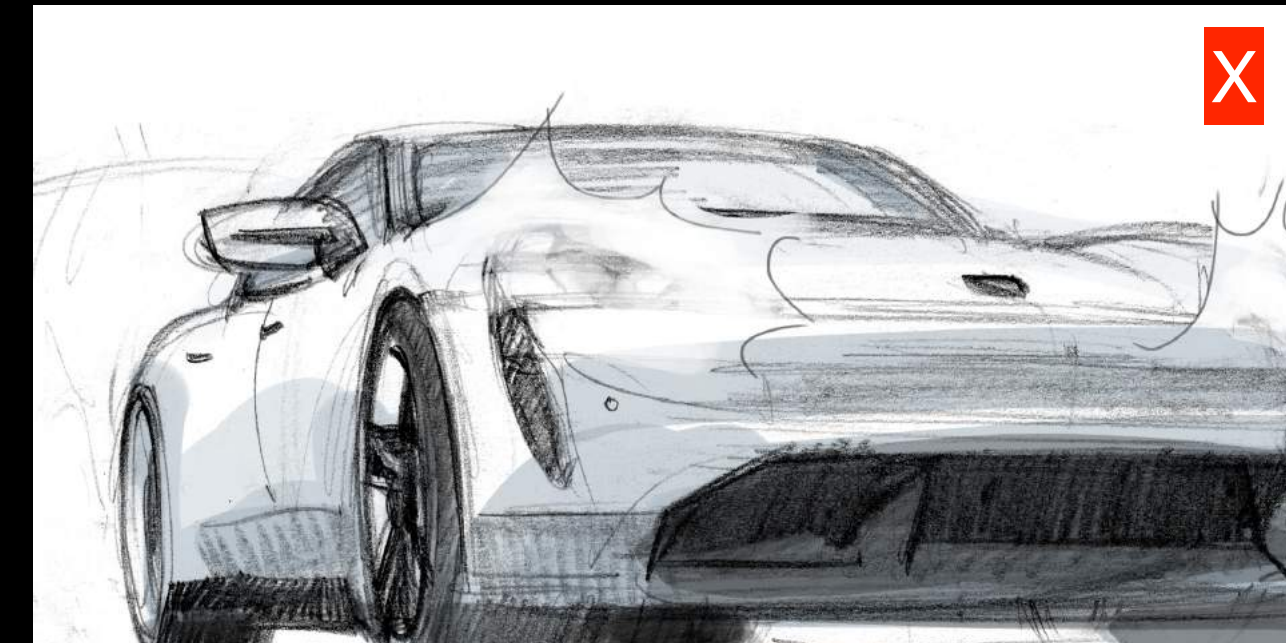

Rough cut. A match cut that leaves the Lamborghini Huracan in exactly the same position as it was on the beach. But now the Lamborghini Huracan is still stuck in the traffic jam, surrounded by the same ordinary cars as in the beginning of the film.

38 -

As the mournful music returns, the headlights cut right to it by lighting up.

39 -

Followed by the Porsche Taycan Turbo S

40 -

Followed by the Nissan Z 2023

41 -

The camera returns to the billboard... which suddenly comes to life, triggering a series of in-game images
